Dear Sir, Madam or Councillor

**REPLACEMENT OF ROAD MARKINGS AND STUDS FOLLOWING SURFACE  
DRESSING WORKS**

In the spring/summer of 2018 we will be carrying out our annual programme of surface dressing works (please see attached table for specific locations affecting your area).

This process seals the road surface to protect it from frost damage and also increases its skid resistance making it safer for drivers. As part of the scheme planning we have reviewed the road markings and road studs at each of the sites.

All road markings and road studs should be in accordance with The Traffic Signs Regulations and General Directions 2016 and The Traffic Signs Manual which give guidance on their use. However, over the years there has been an inconsistent approach to the provision of road markings and studs across the county. On many roads this has resulted in either an excess of markings or the installation of incorrect markings. In some locations changes have been made, such as a reduction in the speed limit, with the result that the markings and studs no longer comply with the current regulations and guidance. Also, changes have been made to the regulations relating to road markings, meaning that some, such as 'Keep Clear' markings, are no longer legally correct.

As a result, following the surface dressing process, in some places some road markings and studs will not be replaced and in others there will be additional ones. If you would like to discuss this further please do not hesitate to contact me.

Yours Sincerely

A handwritten signature in blue ink, appearing to read 'A. Caddy'.

Andhika Caddy
